

## 12th Grade

- Make a master calendar with testing dates, application deadlines, etc. This will keep you on top of your deadlines.
- Don't be afraid to reach out to the college admissions offices as well to see if there is anything else you need for any application.
- Now is NOT the time to slack off - colleges typically request mid-year grades and could rescind your acceptance based on your senior year performance.
- If you take (or have taken) dual enrollment, you will have to request those records from that institution.
- Remember - dual enrollment courses show up on your high school transcript and will follow you through college, so do your best!
- Your final high school transcript will be sent no later than two weeks after graduation to the college you will be attending.
